

Community Event Fund 2020

Funding – objectives

The Community Fund has 4 key objectives in 2020

- **Collaboration – working with new partners in the community**

We are looking for local community groups to come together and work together to deliver a well-resourced and organised event.

- **Sustainability – working in sustainable ways with strong sustainability themes throughout the event.**

Lambeth Council have published a green event guide and want to work with local event organisers to think about how they can deliver more sustainable events. We are also eager to see the theme of sustainability embedded in the event to educate and encourage behaviour change in our communities.

- **Community engagement – reaching new audiences**

We are looking for event organisers to be activity seeking and reaching new and diverse audiences, local to the event location. You need to demonstrate an understanding of the community that lives around the event location and the hard to reach members of the community.

- **Legacy – how does your event continue to inspire or signpost to further engagement with the community.**

How does your event and the activity you are providing at your event encourage further engagement with community services such as parks and open spaces or other community groups in the area for example?

In making your application we will ask you to comment against each of these objectives. We understand that you will be able to meet some objectives better than others.
