

Appendix 3 – Clapham Common Application Site Events Schedule 2021

Introduction

1.1 As outlined in paragraph 1.12 of the Clapham Common Events Report, this application seeks temporary planning permission for 65 event days within the site red-line on Clapham Common. This document provides a schedule of events that are included within the planning application for 2021.

1.2 For the purposes of this application, an “event day” is defined as any day where an event takes place on the Common. An event day also includes set-up and dismantlement for those events for which these are required. For example, an early morning charity fun run, or a summer fête occurring during the afternoon would both count as one event day.

1.3 Previous applications have in some instances, indicated where the event day of an event will overlap with the event day of another event. For the purposes of this application, the days when events overlap will not be treated as one single event day, where they have previously. This is because the pandemic means that events dates are subject to alterations and so overlapping dates may change.

1.4 The schedule of events for Clapham Common is separated into three sections that reflect the different classifications of events: large and major events, medium events, and small events. These classifications and their schedules are detailed in the following sections.

1.5 Within the sections of this document, included are only those events which occur either all or partially on the LB Lambeth side of the Common, and thus are included in this application. In addition to this document, a full chronological list of all events scheduled to take place on Clapham Common in 2021 is provided as a separate document. This list contains all events taking place on both LB Wandsworth and LB Lambeth, which have applied, as well as those which we have been advised do not require planning permissions or are applying for their own planning permissions. These are clearly set out.

1.6 It should be noted that the list provided below is ever changing as events may move dates, cancel or postpone. However, the number of event dates that require planning permission are included within this application within the site red-line plan will not exceed 65.

Large and Major Events

2.1 Large events scheduled to take place on the Common are classified as those that attract up to 19,999 attendees. These events have included an annual charity bike ride, an annual charity fundraising walk and music festivals.

2.2 Major events are classified as those events that attract over 20,000 attendees to the Common. There is one series of events scheduled to take place on the Common in 2021 that are classified as a Major.

2.3 As the table below indicates, there is 1 Major event scheduled to take place on the Common in 2021. This event will have a total of 29 designated event days. This planning application seeks temporary planning permission for no more than 29 events days for Large and Major Events as part of the overall number of 65 event days.

2.4 The Moonwalk and British Heart Foundation London to Brighton Bike Ride will not be taking place in 2021. They will return for 2022. The only Major event will be the Festival Republic Concert Series and Festival which is likely to have large and major days.

The remaining 36 event days will be for Small and Medium events as detailed below.

Event Name	Event Type	Event On-site	Event Start Date	Event Finish Date	Event Off-Site	Total Days onsite	Estimated Area (Sqm)	Notes
Festival Republic Concert Series and Festival	Commercial	09/08/21	20/08/21	30/08/21	06/09/21	29	81,000	This is a series of concerts and a festival for Clapham Common. Part of a tender issued in 2019. Appendix 4 gives more information about these events. This will have large and major event days in total.

Medium Events

3.1 Medium events scheduled to take place on the Common are classified by EventLambeth as those that attract up to 4,999 attendees. These events have included annual sports events, annual charity fun runs, and community dog shows.

3.2 The table below indicates that there are 3 medium sized events included within this planning application for 2021. These events combined will have a total of 9 event days. This planning application seeks temporary planning permission for no more than 9 event days for medium-sized events as part of the overall number of 65 event days. There are some dates when these events overlap with other event days

Event Name	Event Type	Event On-site	Event Start Date	Event Finish Date	Event Off-Site	Total Number of Days	Estimated Area (Sqm)	Notes

Small Events

4.1 Small events scheduled to take place on the Common are those community, charity and commercial events that attract up to 499 attendees. These events include local youth music events, annual charity fun runs, and cycle rides. The increase in Commercial running event is due to postponements from events in 2020 that were unable to go ahead

4.2 The table below indicates that there are 10 small events included within this planning application for 2021. These events combined will take place over a total of 27 days.

4.3 While some of these events take place alongside other events also taking place on the Common, we have applied for individual days as in the current Pandemic events are subject to change of dates and so may not be overlapping as they are at present.

4.4 This planning application seeks temporary planning permission for no more than 27 event days for small events as part of the overall number of 65 event days.
